Essex Portfolio, L.P. Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 65,727,808 shares of Common Stock (\$0.0001 par value) of Essex Property Trust, Inc. were outstanding as of July 23, 2019.

EXPLANATORY NOTE

This report combines the reports on Form 10-Q for the three and six month periods ended June 30, 2019 of Essex Property Trust, Inc., a Maryland corporation, and Essex Portfolio, L.P., a Delaware limited partnership of which Essex Property Trust, Inc. is the sole general partner.

Unless stated otherwise or the context otherwise requires, references to the "Company," "we," "us" or "our" mean collectively Essex Property Trust, Inc. and those entities/subsidiaries owned or controlled by Essex Property Trust, Inc., including Essex Portfolio, L.P., and references to the "Operating Partnership" mean Essex Portfolio, L.P. and those entities/subsidiaries owned or controlled by Essex Portfolio, L.P. Unless stated otherwise or the context otherwise requires, references to "Essex" mean Essex Property Trust, Inc., not including any of its subsidiaries.

Essex operates as a self-administered and self-managed real estate investment trust ("REIT"), and is the sole general partner of the Operating Partnership. As the sole general partner of the Operating Partnership, Essex has exclusive control of the Operating Partnership's day-to-day management.

The Company is structured as an umbrella partnership REIT ("UPREIT") and Essex contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, Essex receives a number of Operating Partnership limited partnership units ("OP Units," and the holders of such OP Units, "Unitholders") equal to the number of shares of common stock it has issued in the equity offerings. Contributions of properties to the Company can be structured as tax-deferred transactions through the issuance of OP Units, which is one of the reasons why the Company is structured in the manner outlined above. Based on the terms of the Operating Partnership's partnership agreement, OP Units can be exchanged into Essex common stock on a one-for-one basis. The Company maintains a one-for-one relationship between the OP Units issued to Essex and shares of common stock.

The Company believes that combining the reports on Form 10-Q of Essex and the Operating Partnership into this single report provides the following benefits:

- enhances investors' understanding of Essex and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both Essex and the Operating Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates Essex and the Operating Partnership as one business. The management of Essex consists of the same members as the management of the Operating Partnership.

All of the Company's property ownership, development, and related business operations are conducted through the Operating Partnership and Essex has no material assets, other than its investment in the Operating Partnership. Essex's primary function is acting as the general partner of the Operating Partnership. As general partner with control of the Operating Partnership, Essex consolidates the Operating Partnership for financial reporting purposes. Therefore, the assets and liabilities of Essex and the Operating Partnership are the same on their respective financial statements. Essex also issues equity from time to time and guarantees certain debt of the Operating Partnership, as disclosed in this report. The Operating Partnership holds substantially all of the assets of the Company, including the Company's ownership interests in its co-investments. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from equity offerings by the Company, which are contributed to the capital of the Operating Partnership in exchange for OP Units (on a one-for-one share of common stock per OP Unit basis), the Operating Partnership generates all remaining capital required by the Company's business. These sources of capital include the Operating Partnership's working capital, net cash provided by operating activities, borrowings under its revolving credit facilities, the issuance of secured and unsecured debt and equity securities and proceeds received from disposition of certain properties and co-investments.

The Company believes it is important to understand the few differences between Essex and the Operating Partnership in the context of how Essex and the Operating Partnership operate as a consolidated company. Stockholders' equity, partners' capital and noncontrolling interest are the main areas of difference between the condensed consolidated financial statements of Essex and those of the Operating Partnership. The limited partners of the Operating Partnership are accounted for as partners' capital in the Operating Partnership's condensed consolidated financial statements and as noncontrolling interest in Essex's condensed consolidated financial statements. The noncontrolling interest in the Operating Partnership's condensed consolidated financial statements include the interest of unaffiliated partners in various consolidated partnerships and co-investment partners. The noncontrolling interest in Essex's condensed consolidated financial statements include (i) the same noncontrolling interest as

presented in the Operating Partnership's condensed consolidated financial statements and (ii) OP Unit holders. The differences between stockholders' equity and partners' capital result from differences in the equity issued at Essex and Operating Partnership levels.

To help investors understand the significant differences between Essex and the Operating Partnership, this report on Form 10-Q provides separate consolidated financial statements for Essex and the Operating Partnership; a single set of consolidated notes to such financial statements that includes separate discussions of stockholders' equity or partners' capital, and earnings per share/unit, as applicable; and a combined Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report on Form 10-Q also includes separate Part I, Item 4. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of Essex and the Operating Partnership in order to establish that the requisite certifications have been made and that Essex and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 (the "Exchange Act") and 18 U.S.C. §1350.

In order to highlight the differences between Essex and the Operating Partnership, the separate sections in this report on Form 10-Q for Essex and the Operating Partnership specifically refer to Essex and the Operating Partnership. In the sections that combine disclosure of Essex and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and co-investments and holds assets and debt, reference to the Company is appropriate because the Company is one business and the Company operates that business through the Operating Partnership. The separate discussions of Essex and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

The information furnished in the accompanying unaudited condensed consolidated balance sheets, statements of income and comprehensive income, equity, capital, and cash flows of the Company and the Operating Partnership reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the aforementioned condensed consolidated financial statements for the interim periods and are normal and recurring in nature, except as otherwise noted.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the notes to such unaudited condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations herein. Additionally, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2018.

ESSEX PORTFOLIO, L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2019 and 2018
(Unaudited)

(1) Organization and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements present the accounts of Essex Property Trust, Inc. ("Essex" or the "Company"), which include the accounts of the Company and Essex Portfolio, L.P. and its subsidiaries (the "Operating Partnership," which holds the operating assets of the Company), prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and in accordance with the instructions to Form 10-Q. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented have been included and are normal and recurring in nature. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2018.

All significant intercompany accounts and transactions have been eliminated in the unaudited condensed consolidated financial statements. Certain reclassifications have been made to conform to the current year's presentation.

The unaudited condensed consolidated financial statements for the three and six months ended June 30, 2019 and 2018 include the accounts of the Company and the Operating Partnership. Essex is the sole general partner of the Operating Partnership, with a 96.6% general partnership interest as of both June 30, 2019 and December 31, 2018. Total Operating Partnership limited partnership units ("OP Units," and the holders of such OP Units, "Unitholders") outstanding were 2,299,237 and 2,305,389 as of June 30, 2019 and December 31, 2018, respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled approximately \$671.2 million and \$565.3 million as of June 30, 2019 and December 31, 2018, respectively.

As of June 30, 2019, the Company owned or had ownership interests in 246 operating apartment communities, aggregating 59,962 apartment homes, excluding the Company's ownership interest in preferred interest co-investments, loan investments, one operating commercial building, and six active developments. The operating apartment communities are located in Southern California (Los Angeles, Orange, San Diego, and Ventura counties), Northern California (the San Francisco Bay Area) and the Seattle metropolitan areas.

Accounting Pronouncements Adopted in the Current Year

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-02 (Topic 842) "Leases," which requires an entity that is a lessee to classify leases as either finance or operating and to recognize a lease liability and a right-of-use asset for all leases that have a duration of greater than 12 months. Leases of 12 months or less are to be accounted for similar to prior leasing guidance (Topic 840) for operating leases. For lessors, accounting for leases under the new standard is substantially the same as prior leasing guidance for sales-type leases, direct financing leases, and operating leases, but eliminates current real estate specific provisions and changes the treatment of initial direct costs. In July 2018, the FASB issued ASU No. 2018-11 "Leases (Topic 842): Targeted Improvements," which includes a practical expedient that allows lessors to not separate nonlease components from the associated lease component. This provides the Company with the option of not bifurcating certain common area maintenance recoveries as a non-lease component, if certain requirements are met. The Company adopted ASU No. 2016-02 and ASU No. 2018-11 as of January 1, 2019 using the modified retrospective approach and elected a package of practical expedients. There was no adjustment to the opening balance of retained earnings as a result of the adoption. See Note 11, Lease Agreements - Company as Lessor, and Note 12, Lease Agreements - Company as Lessee, for further details.

In August 2017, the FASB issued ASU No. 2017-12 "Derivatives and Hedging - Targeted Improvements to Accounting for Hedging Activities," which, among other things, requires entities to present the earnings effect of hedging instruments in the same income statement line item in which the earnings effect of the hedged item is reported. The new standard also adds new disclosure requirements. The Company adopted ASU No. 2017-12 as of January 1, 2019 using the modified retrospective method by applying a cumulative effect adjustment to accumulated other comprehensive loss, net of \$0.2 million, representing accumulated net hedge ineffectiveness. Furthermore, as a result of the adoption of this standard, the Company will recognize qualifying hedge ineffectiveness through accumulated other comprehensive income as opposed to current earnings.

(Unaudited)

Recent Accounting Pronouncements

In June 2016, the FASB issued ASU No. 2016-13 "Measurement of Credit Losses on Financial Instruments," which amends the current approach to estimate credit losses on certain financial assets, including trade and other receivables, available-for-sale securities, and other financial instruments. Generally, this amendment requires entities to establish a valuation allowance for the expected lifetime losses of these certain financial assets. Subsequent changes in the valuation allowance are recorded in current earnings and reversal of previous losses are permitted. Currently, U.S. GAAP requires entities to write down credit losses only when losses are probable and loss reversals are not permitted. The FASB additionally issued various updates to clarify and amend the guidance provided in ASU 2016-13. In May 2019, the FASB issued ASU 2019-04, "Codification Improvements to Topic 326, Financial Instruments - Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments," which, with respect to credit losses, among other things, clarifies and addresses issues related to accrued interest, transfers between classifications of loans or debt securities, recoveries, and variable interest rates. Additionally, in May 2019, the FASB issued ASU 2019-05, "Financial Instruments - Credit Losses (Topic 326): Targeted Transition Relief," which allows entities to irrevocably elect the fair value option on certain financial instruments. The new standards will be effective for the Company beginning January 1, 2020 and early adoption is permitted. The Company is currently evaluating the impact of these amendments on its consolidated results of operations and financial position, with a focus on investments in mortgage backed securities and mezzanine loans.

In August 2018, the FASB issued ASU No. 2018-13 "Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement," which eliminates certain disclosure requirements affecting all levels of measurements, and modifies and adds new disclosure requirements for Level 3 measurements. The new standard will be effective for the Company beginning January 1, 2020 and early adoption is permitted. The Company expects to apply the new standard on January 1, 2020 and does not expect the adoption to have a material impact on the Company's consolidated results of operations of financial position.

Marketable Securities

The Company reports its equity securities and available for sale debt securities at fair value, based on quoted market prices (Level 1 for the common stock and investment funds, Level 2 for the unsecured bonds and Level 3 for investments in mortgage backed securities, as defined by the FASB standard for fair value measurements). As of June 30, 2019 and December 31, 2018, \$6.8 million and \$6.7 million, respectively, of equity securities presented within common stock and stock funds in the tables below, represent investments measured at fair value, using net asset value as a practical expedient, and are not categorized in the fair value hierarchy.

Any unrealized gain or loss in debt securities classified as available for sale is recorded as other comprehensive income. Unrealized gains and losses in equity securities, realized gains and losses in debt securities, interest income, and amortization of purchase discounts are included in interest and other income on the condensed consolidated statements of income and comprehensive income.

As of June 30, 2019 and December 31, 2018, equity securities and debt securities consisted primarily of investment-grade unsecured bonds, U.S. treasury securities, common stock and stock funds, and investments in mortgage backed securities. As of June 30, 2019 and December 31, 2018, the Company classified its investments in mortgage backed securities, which mature in November 2019 and September 2020, as held to maturity, and accordingly, these securities are stated at their amortized cost. The discount on the mortgage backed securities is being amortized to interest income based on an estimated yield and the maturity date of the securities.

<i>Held to maturity</i>			
Mortgage backed securities	127,187	—	127,187
Total - Marketable securities	\$ 211,960	\$ (2,415)	\$ 209,545

The Company uses the specific identification method to determine the cost basis of a debt security sold and to reclassify amounts from accumulated other comprehensive income for such securities.

For the three months ended June 30, 2019 and 2018, the proceeds from sales and maturities of marketable securities totaled \$33.4 million and \$9.4 million, respectively, which resulted in \$0.6 million in realized gains and \$0.2 million in realized loss, respectively, for such periods. For the six months ended June 30, 2019 and 2018, the proceeds from sales and maturities of marketable securities totaled \$50.2 million and \$19.0 million, respectively, which resulted in \$0.5 million in realized gains for both periods.

For the three and six months ended June 30, 2019, the portion of equity security unrealized losses or gains that were recognized in income totaled \$56 thousand in losses and \$4.5 million in gains, respectively, and were included in interest and other income on the Company's condensed consolidated statements of income and comprehensive income. For the three and six months ended June 30, 2018, the portion of equity security unrealized gains and losses that were recognized in income totaled

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES

(Unaudited)

\$0.1 million in unrealized gains and \$0.8 million in unrealized losses and were included in interest and other income on the Company's condensed consolidated statements of income and comprehensive income.

Variable Interest Entities

In accordance with accounting standards for consolidation of variable interest entities ("VIEs"), the Company consolidates the Operating Partnership, 17 limited partnerships (comprising nine communities), and seven co-investments as of June 30, 2019. As of December 31, 2018, the Company consolidated the Operating Partnership, 16 limited partnerships (comprising eight communities) (the "DownREIT limited partnerships"), and eight co-investments. The Company consolidates these entities because it is deemed the primary beneficiary. Essex has no assets or liabilities other than its investment in the Operating Partnership. The consolidated total assets and liabilities related to the above consolidated co-investments and DownREIT limited partnerships, net of intercompany eliminations, were approximately \$1.0 billion and \$369.1 million, respectively, as of June 30, 2019 and \$849.8 million and \$261.7 million, respectively, as of December 31, 2018. Noncontrolling interests in these entities were \$129.3 million and \$64.5 million as of June 30, 2019 and December 31, 2018, respectively. The Company's financial risk in each VIE is limited to its equity investment in the VIE. As of June 30, 2019 and December 31, 2018, the Company did not have any VIEs of which it was not deemed to be the primary beneficiary.

Equity-based Compensation

The cost of share- and unit-based compensation awards is measured at the grant date based on the estimated fair value of the awards. The estimated fair value of stock options and restricted stock granted by the Company are being amortized over the vesting period. The estimated grant date fair values of the long term incentive plan units (discussed in Note 13, "Equity Based Compensation Plans," in the Company's annual report on Form 10-K for the year ended December 31, 2018) are being amortized over the expected service periods.

Fair Value of Financial Instruments

Management believes that the carrying amounts of the outstanding balances under its lines of credit, and notes and other receivables approximate fair value as of June 30, 2019 and December 31, 2018, because interest rates, yields, and other terms for these instruments are consistent with interest rates, yields, and other terms currently available for similar instruments. Management has estimated that the fair value of the Company's fixed rate debt with a carrying value of \$5.1 billion and \$5.0 billion at June 30, 2019 and December 31, 2018, respectively, was approximately \$5.3 billion and \$5.0 billion, respectively. Management has estimated that the fair value of the Company's \$736.3 million and \$619.6 million of variable rate debt, at June 30, 2019 and December 31, 2018, respectively, was approximately \$731.3 million and \$615.2 million based on the terms of existing mortgage notes payable, unsecured debt, and variable rate demand notes compared to those available in the marketplace. Management believes that the carrying amounts of cash and cash equivalents, restricted cash, accounts payable and accrued liabilities, construction payables, other liabilities, and dividends payable approximate fair value as of June 30, 2019 and December 31, 2018 due to the short-term maturity of these instruments. Marketable securities, except mortgage backed securities, are carried at fair value as of June 30, 2019 and December 31, 2018.

At June 30, 2019, the Company's investments in mortgage backed securities had a carrying value of \$138.1 million and the Company estimated the fair value to be approximately \$140.1 million. At December 31, 2018, the Company's investments in mortgage backed securities had a carrying value of \$127.2 million and the Company estimated the fair value to be approximately \$129.5 million. The Company determines the fair value of the mortgage backed securities based on unobservable inputs (level 3 of the fair value hierarchy) considering the assumptions that market participants would make in valuing these securities. Assumptions such as estimated default rates and discount rates are used to determine the expected, discounted cash flows to estimate fair value.

Capitalization of Costs

The Company's capitalized internal costs related to development and redevelopment projects were comprised primarily of employee compensation and totaled \$4.0 million and \$4.5 million during the three months ended June 30, 2019 and 2018, respectively, and \$8.8 million and \$9.5 million for the six months ended June 30, 2019 and 2018, respectively. The Company capitalizes leasing commissions associated with the lease-up of development communities and amortizes the costs over the life of the leases. The amounts capitalized for leasing commissions are immaterial for all periods presented.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
ESSEX PORTFOLIO, L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2019 and 2018
(Unaudited)

Co-investments

The Company owns investments in joint ventures in which it has significant influence, but its ownership interest does not meet the criteria for consolidation in accordance with U.S. GAAP. Therefore, the Company accounts for co-investments using the equity method of accounting. Under the equity method of accounting, the investment is carried at the cost of assets contributed, plus the Company's equity in earnings less distributions received and the Company's share of losses. The significant accounting policies of the Company's co-investment entities are consistent with those of the Company in all material respects.

Upon the acquisition of a controlling interest of a co-investment, the co-investment entity is consolidated and a gain or loss is recognized upon the remeasurement of co-investments in the consolidated statement of income equal to the amount by which the fair value of the co-investment interest the Company previously owned exceeds its carrying value. A majority of the co-investments, excluding the preferred equity investments, compensate the Company for its asset management services and some of these investments may provide promote income if certain financial return benchmarks are achieved. Asset management fees are recognized when earned, and promote fees are recognized when the earnings events have occurred and the amount is determinable and collectible. Any promote fees are reflected in equity income from co-investments.

The Company reports investments in co-investments where accumulated distributions have exceeded the Company's investment as distributions in excess of investments in co-investments in the accompanying condensed consolidated balance sheets.

Changes in Accumulated Other Comprehensive Loss, Net by Component

Essex Property Trust, Inc.

(\$ in thousands):

	Change in fair value and amortization of swap settlements	Unrealized gains/(losses) on available for sale securities	Total

June 30, 2019 and 2018
(Unaudited)

Amounts reclassified from accumulated other comprehensive loss in connection with derivatives are recorded in interest expense on the condensed consolidated statements of income and comprehensive income. Realized gains and losses on available for sale debt securities are included in interest and other income on the condensed consolidated statements of income and comprehensive income.

Redeemable Noncontrolling Interest

The carrying value of redeemable noncontrolling interest in the accompanying condensed consolidated balance sheets was \$36.8 million and \$35.5 million as of June 30, 2019 and December 31, 2018, respectively. The limited partners may redeem their noncontrolling interests for cash in certain circumstances.

The changes to the redemption value of redeemable noncontrolling interests for the six months ended June 30, 2019 is as follows (\$ in thousands):

Balance at December 31, 2018	\$	35,475
Reclassification due to change in redemption value and other		1,428
Redemptions		(73)
Balance at June 30, 2019	\$	<u>36,830</u>

Cash, Cash Equivalents and Restricted Cash

Highly liquid investments with original maturities of three months or less when purchased are classified as cash equivalents. Restricted cash balances relate primarily to reserve requirements for capital replacement at certain communities in connection with the Company's mortgage debt.

The following table provides a reconciliation of cash, cash equivalents, and restricted cash reported within the condensed consolidated balance sheets that sum to the total of the same such amounts shown in the condensed consolidated statements of cash flows (\$ in thousands):

	<u>June 30, 2019</u>	<u>December 31, 2018</u>	<u>June 30, 2018</u>	<u>December 31, 2017</u>
Cash and cash equivalents - unrestricted	\$ 38,168	\$ 134,465	\$ 160,902	\$ 44,620
Cash and cash equivalents - restricted	16,803	16,930	16,674	16,506
Total unrestricted and restricted cash and cash equivalents shown in the condensed consolidated statement of cash flows	<u>\$ 54,971</u>	<u>\$ 151,395</u>	<u>\$ 177,576</u>	<u>\$ 61,126</u>

Accounting Estimates

The preparation of condensed consolidated financial statements, in accordance with U.S. GAAP, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to acquiring, developing and assessing the carrying values of its real estate portfolio, its investments in and advances to joint ventures and affiliates, its notes receivables, and its qualification as a real estate investment trust ("REIT"). The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

(2) Significant Transactions During The Six Months Ended June 30, 2019 and Subsequent Events

Significant Transactions

Acquisitions

In March 2019, the Company acquired its joint venture partner's 45.0% membership interest in One South Market, a multifamily community located in San Jose, CA, for total consideration of \$80.6 million. Concurrent with the closing of the acquisition, \$86.0 million in mortgage debt was repaid. As a result of this acquisition, the Company realized a gain on remeasurement of co-investment of \$31.5 million upon consolidation. Furthermore, the Company recognized \$0.8 million in promote income as a result of the transaction, which is included in equity income from co-investments on the condensed consolidated statements of income and comprehensive income.

In June 2019, the Company acquired Brio, a 300 unit apartment home community located in Walnut Creek, CA. The Company issued DownREIT limited partnership units to an affiliate of Marcus & Millichap Company, based on a contract price of \$164.9 million. The property is encumbered by \$98.7 million of mortgage debt which was assumed by the Company. As a result of this transaction, the Company consolidates the property, based on a VIE analysis performed by the Company. See Note 6, Related Party Transactions, for additional details.

Dispositions

In May 2019, the Company sold its 50.0% ownership interest in a co-investment that held land located in Oakland, CA for \$6.1 million, resulting in a gain of \$0.9 million within equity income from co-investments.

Co-Investments

Preferred Equity Investments

In February 2019, the Company funded a \$24.5 million related party preferred equity investment in a multifamily development community located in Mountain View, CA. The investment has an initial preferred return of 11.0% and is scheduled to mature in February 2024. See Note 6, Related Party Transactions, for additional details.

In February 2019, the Company received cash of \$10.9 million, including an early redemption fee of \$0.1 million, for the full redemption of a related party preferred equity investment in a joint venture that holds property in San Jose, CA. See Note 6, Related Party Transactions, for additional details.

In March 2019, the Company made a commitment to fund a \$36.0 million preferred equity commitment in a multifamily development community located in Irvine, CA. The investment has an initial preferred return of 10.15% and is scheduled to mature in July 2022. As of June 30, 2019, the Company had funded \$12.0 million of this commitment.

In April 2019, the Company received cash of \$16.3 million, including an early redemption fee of \$0.7 million, for the full redemption of a preferred equity investment in a joint venture that holds property in Santa Ana, CA.

In April 2019, the Company made a commitment to fund a \$36.8 million preferred equity investment in a multifamily development community located in Oakland, CA. The investment has an initial preferred return of 10.25% and is scheduled to mature in April 2023. As of June 30, 2019, the Company had funded \$5.0 million of this commitment. The remaining committed amount is expected to be funded by the end of the year.

In April 2019, the Company made a commitment to fund a \$11.8 million preferred equity investment in a multifamily development community located in Oakland, CA. The investment has an initial preferred return of 11.0% and is scheduled to mature in April 2023. As of June 30, 2019, the Company had funded \$4.0 million of this commitment. The remaining committed amount is expected to be funded by the end of the year.

June 30, 2019 and 2018
(Unaudited)

Common Stock

In January 2019, the Company repurchased and retired 234,061 shares totaling \$57.0 million, including commissions. In February 2019, the board of directors approved the replenishment of the stock repurchase plan such that, as of such date, the Company had \$250.0 million of purchase authority remaining under the replenished plan. As a result of the replenishment, as of June 30, 2019, the Company had \$250.0 million of purchase authority remaining under the stock repurchase plan.

Senior Unsecured Debt

In February 2019, the Operating Partnership issued \$350.0 million of senior unsecured notes due on March 1, 2029, with a coupon rate of 4.000% (the "2029 Notes"), which are payable on March 1 and September 1 of each year, beginning on September 1, 2019. The 2029 Notes were offered to investors at a price of 99.188% of the principal amount thereof. The 2029 Notes are general unsecured senior obligations of the Operating Partnership, rank equally in right of payment with all other senior unsecured indebtedness of the Operating Partnership and are unconditionally guaranteed by the Company. In March 2019, the Operating Partnership issued an additional \$150.0 million of the 2029 Notes at a price of 100.717% of the principal amount thereof. These additional notes have substantially identical terms as the 2029 Notes issued in February 2019. The Company used the net proceeds of these offerings to repay indebtedness under its unsecured lines of credit and for other general corporate and working capital purposes.

Mortgage Notes Payable

In January 2019, the Company repaid \$290.0 million in secured mortgage notes payable with a coupon rate of 5.57% and a stated maturity date of May 2019. The Company realized a gain on early extinguishment of debt of \$1.4 million.

Subsequent Events

None.

(3) Revenues

Disaggregated Revenue

The following table presents the Company's revenues disaggregated by revenue source (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Rental income ⁽¹⁾	\$ 353,167	\$ 340,481	\$ 700,972	\$ 679,496

June 30, 2019 and 2018
(Unaudited)

(1) On January 1, 2019, the Company adopted ASU No. 2016-02 “Leases.” As a result of this adoption certain amounts previously classified as other property revenue have been reclassified to rental income. Prior period amounts have been adjusted to conform to the current period’s presentation.

The following table presents the Company’s rental and other property-related revenues disaggregated by geographic operating segment (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Southern California	\$ 151,966	\$ 147,249	302,990	293,807
Northern California	140,095	129,590	276,420	258,212
Seattle Metro	60,841	58,796	121,081	117,509
Other real estate assets ⁽¹⁾	6,473	10,891	12,772	21,945
Total rental and other property revenues	\$ 359,375	\$ 346,526	\$ 713,263	\$ 691,473

(1) Other real estate assets consists of revenues generated from retail space, commercial properties, held for sale properties, and disposition properties. Executive management does not evaluate such operating performance geographically.

The following table presents the Company’s rental and other property-related revenues disaggregated by current property category status (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Same-property ⁽¹⁾	\$ 340,042	\$ 328,602	\$ 677,394	\$ 655,869
Acquisitions ⁽²⁾	4,836	—	7,107	—
Development ⁽³⁾	1,192	450	2,325	469
Redevelopment	5,223	5,036	10,435	10,060
Non-residential/other, net ⁽⁴⁾	8,082	12,438	16,002	25,075
Total rental and other property revenues	\$ 359,375	\$ 346,526	\$ 713,263	\$ 691,473

(1) Properties that have stabilized operations as of January 1, 2018 and are consolidated by the Company for the three and six months ended June 30, 2019 and 2018. A community is generally considered to have reached stabilized operations once it achieves an initial occupancy of 95%.

(2) Acquisitions includes properties acquired which did not have comparable stabilized results as of January 1, 2018.

(3) Development includes properties developed which did not have stabilized results as of January 1, 2018.

(4) Non-residential/other, net consists of revenues generated from retail space, commercial properties, held for sale properties, disposition properties and student housing.

Deferred Revenues and Remaining Performance Obligations

When cash payments are received or due in advance of the Company’s performance of contracts with customers, deferred revenue is recorded. The total deferred revenue balance related to such contracts was \$4.8 million and \$6.2 million as of June 30, 2019 and December 31, 2018, respectively, and was included in accounts payable and accrued liabilities within the accompanying consolidated balance sheets. The amount of revenue recognized for the six months ended June 30, 2019 that was included in the December 31, 2018 deferred revenue balance was \$1.4 million, which was included in interest and other income within the condensed consolidated statements of income and comprehensive income.

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account in the revenue recognition accounting standard. As of June 30, 2019, the Company had \$4.8 million of remaining

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements
June 30, 2019 and 2018
(Unaudited)

performance obligations. The Company expects to recognize approximately 19% of these remaining performance obligations in 2019, an additional 31% through 2021, and the remaining balance thereafter.

(4) Co-investments

The Company has joint ventures and preferred equity investments in co-investments which are accounted for under the equity method. The co-investments, including BEXAEW, BEX II, and BEX III, the Canadian Pension Plan Investment Board ("CPPIB"), Wesco I, LLC ("Wesco I"), Wesco III, LLC ("Wesco III"), Wesco IV, LLC ("Wesco IV"), and Wesco V, LLC ("Wesco V"), own, operate, and develop apartment communities. The carrying values of the Company's co-investments as of June 30, 2019 and December 31, 2018 are as follows (\$ in thousands, except parenthetical amounts):

	Weighted Average Company Ownership Percentage ⁽¹⁾	June 30, 2019	December 31, 2018
Ownership interest in:			
CPPIB	54%	\$ 473,746	\$ 482,507

(1) See Note 6, Related Party Transactions, for additional details.

(2) These amounts consist of short-term loans outstanding and due from various joint ventures as of June 30, 2019 and December 31, 2018, respectively. See Note 6, Related Party Transactions, for additional details.

(6) Related Party Transactions

The Company charges certain fees relating to its co-investments for asset management, property management, development and redevelopment services. These fees from affiliates totaled \$3.5 million and \$3.2 million during the three months ended June 30, 2019 and 2018, respectively, and \$6.9 million and \$6.4 million during the six months ended June 30, 2019 and 2018, respectively. All of these fees are net of intercompany amounts eliminated by the Company. The Company netted development and redevelopment fees of \$1.3 million and \$1.0 million against general and administrative expenses for the three months ended June 30, 2019 and 2018, respectively, and \$2.4 million and \$1.9 million for the six months ended June 30, 2019 and 2018, respectively.

In November 2017, the Company provided a \$29.5 million related party bridge loan to a property acquired by BEX III. The note receivable accrued interest at 3.5% and was paid off in January 2018.

The Company's Chairman and founder, Mr. George M. Marcus, is the Chairman of the Marcus & Millichap Company ("MMC"), which is a parent company of a diversified group of real estate service, investment, and development firms. Mr. Marcus is also the Co-Chairman of Marcus & Millichap, Inc. ("MMI"), and Mr. Marcus owns a controlling interest in MMI, a national brokerage firm listed on the New York Stock Exchange.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
ESSEX PORTFOLIO, L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2019 and 2018
(Unaudited)

In June 2019, the Company acquired Brio, a 300 unit apartment home community located in Walnut Creek, CA. The Company issued DownREIT limited partnership units to an affiliate of MMC, based on a contract price of \$164.9 million. The property is encumbered by \$98.7 million of mortgage debt which was assumed by the Company. As a result of this transaction, the Company consolidates the property, based on a VIE analysis performed by the Company.

In February 2019, the Company funded a \$24.5 million preferred equity investment in an entity whose sponsor is an affiliate of MMC, which owns a multifamily development community located in Mountain View, CA. The investment has an initial preferred return of 11.0% and is scheduled to mature in February 2024.

In October 2018, the Company funded a \$18.6 million preferred equity investment in an entity whose sponsor is an affiliate of MMC. The entity wholly owns a 268 apartment home community development located in Burlingame, CA. This investment will accrue interest based on an initial 12.00% preferred return. The investment is scheduled to mature in April 2024.

In May 2018, the Company made a commitment to fund a \$26.5 million preferred equity investment in an entity whose sponsors include an affiliate of MMC. The entity wholly owns a 400 apartment home community located in Ventura, CA. This investment will accrue interest based on a 10.25% preferred return. The investment is scheduled to mature in May 2023. As of June 30, 2019, the Company had funded \$21.3 million of the commitment. The remaining committed amount will be funded when requested by the sponsors.

In March 2017, the Company converted its existing \$15.3 million preferred equity investment in Sage at Cupertino, a 230 apartment home community located in San Jose, CA, into a 40.5% common equity ownership interest in the property. The Company issued DownREIT limited partnership units to the other members, including an MMC affiliate, based on an estimated property valuation of \$90.0 million. At the time of the conversion, the property was encumbered by \$52.0 million of mortgage debt. As a result of this transaction, the Company consolidates the property, based on a VIE analysis performed by the Company.

In 2015, the Company made preferred equity investments totaling \$20.0 million in three entities affiliated with MMC that own apartment communities in California. The Company earns a 9.5% preferred return on each such investment. One \$5.0 million investment, which was scheduled to mature in 2022, was fully redeemed in 2017. Another \$5.0 million investment, which was scheduled to mature in 2022, was fully redeemed in 2018. The remaining investment was fully redeemed in February 2019.

As described in Note 5, Notes and Other Receivables, the Company has provided short-term loans to affiliates. As of June 30, 2019 and December 31, 2018, \$4.0 million and \$4.5 million, respectively, of short-term loans remained outstanding due from joint venture affiliates and is classified within notes and other receivables in the accompanying condensed consolidated balance sheets. In November 2016, the Company provided a \$6.6 million mezzanine loan to a limited liability company in which MMC holds a significant ownership interest through subsidiaries. The mezzanine loan is classified within notes and other receivables in the accompanying condensed consolidated balance sheets and had an outstanding balance of \$6.6 million as of both June 30, 2019 and December 31, 2018, respectively.

(7) Debt

The Company does not have indebtedness as debt is incurred by the Operating Partnership. The Company guarantees the Operating Partnership's unsecured debt including the revolving credit facilities for the full term of the facilities.

(1) Includes unamortized discount of \$9.2 million and \$7.1 million and unamortized debt issuance costs of \$21.5 million and \$18.5 million, as of June 30, 2019 and December 31, 2018, respectively.

(2) Lines of credit, related to the Company's two lines of unsecured credit aggregating \$1.24 billion as of June 30, 2019, excludes unamortized debt issuance costs of \$4.4 million and \$3.9 million as of June 30, 2019 and December 31, 2018, respectively. These debt issuance costs are included in prepaid expenses and other assets on the condensed consolidated balance sheets. As of June 30, 2019, the Company's \$1.2 billion credit facility had an interest rate of LIBOR plus 0.825%, which is based on a tiered rate structure tied to the Company's credit ratings and a scheduled maturity date of December 2022 with one 18-month extension, exercisable at the Company's option. As of June 30, 2019, the Company's \$35.0 million working capital unsecured line of credit had an interest rate of LIBOR plus 0.825%, which is based on a tiered rate structure tied to the Company's credit ratings and a scheduled maturity date of February 2021.

(3) Includes total unamortized premium of \$12.3 million and \$14.9 million, reduced by unamortized debt issuance costs of \$3.4 million and \$4.2 million, as of June 30, 2019 and December 31, 2018, respectively.

The aggregate scheduled principal payments of the Company's outstanding debt as of June 30, 2019 are as follows (excluding lines of credit) (\$ in thousands):

Remaining in 2019	\$ 118,081
2020	695,580
2021	545,537
2022	693,188
2023	602,945
Thereafter	3,090,767
Total	\$ 5,746,098

(8) Segment Information

The Company's segment disclosures present the measure used by the chief operating decision makers for purposes of assessing each segment's performance. The Company's chief operating decision makers are comprised of several members of its executive management team who use net operating income ("NOI") to assess the performance of the business for the Company's reportable operating segments. NOI represents total property revenues less direct property operating expenses.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES

ESSEX PORTFOLIO, L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

June 30, 2019 and 2018

(Unaudited)

The executive management team evaluates the Company's operating performance geographically. The Company defines its reportable operating segments as the three geographical regions in which its communities are located: Southern California, Northern California, and Seattle Metro.

Excluded from segment revenues and NOI are management and other fees from affiliates and interest and other income. Non-segment revenues and NOI included in the following schedule also consist of revenues generated from commercial properties and properties that have been sold. Other non-segment assets include items such as real estate under development, co-investments, real estate held for sale, net, cash and cash equivalents, marketable securities, notes and other receivables, and prepaid expenses and other assets.

The revenues and NOI for each of the reportable operating segments are summarized as follows for the three and six months ended June 30, 2019 and 2018 (\$ in thousands):

Net income available to common stockholders	\$ 211,133	65,802,417	\$ <u>3.21</u>	\$ 191,358	66,088,803	\$ <u>2.90</u>

The tables above exclude from the calculations of diluted earnings per share weighted average convertible OP Units of 2,299,284 and 2,273,098, which include vested Series Z-1 Incentive Units, 2014 Long-Term Incentive Plan Units, and 2015 Long-Term Incentive Plan Units for the three months ended June 30, 2019 and 2018, respectively, and 2,302,158 and 2,273,255 for the six months ended June 30, 2019 and 2018, respectively, because they were anti-dilutive. The related income allocated to these convertible OP Units aggregated \$3.2 million and \$3.5 million for the three months ended June 30, 2019 and 2018, respectively, and \$7.4 million and \$6.6 million for the six months ended June 30, 2019 and 2018, respectively. Additionally, the tables exclude all DownREIT limited partnership units for which the Operating Partnership has the ability and intention to redeem the units for cash and does not consider them to be common stock equivalents.

Stock options of zero and 185,181 for the three months ended June 30, 2019 and 2018, respectively, and 106,029 and 185,470 for the six months ended June 30, 2019 and 2018, respectively, were excluded from the calculation of diluted earnings per share because the assumed proceeds per share of such options plus the average unearned compensation were greater than the average market price of the common stock for the periods ended and, therefore, were anti-dilutive.

(10) Derivative Instruments and Hedging Activities

As of June 30, 2019, the Company had entered into interest rate swap contracts with an aggregate notional amount of \$175.0 million that effectively fixed the interest rate on the \$175.0 million unsecured term loan at 2.3%. These derivatives qualify for hedge accounting.

As of June 30, 2019, the Company had interest rate caps, which are not accounted for as hedges, totaling a notional amount of \$9.9 million that effectively limit the Company's exposure to interest rate risk by providing a ceiling on the variable interest rate for \$9.9 million of the Company's tax exempt variable rate debt.

As of June 30, 2019 and December 31, 2018, the aggregate carrying value of the interest rate swap contracts was an asset of \$1.3 million and \$5.8 million, respectively, and is included in prepaid expenses and other assets on the condensed consolidated balance sheets. The aggregate carrying value of the interest rate caps was zero on the condensed consolidated balance sheets as of both June 30, 2019 and December 31, 2018.

Hedge ineffectiveness related to cash flow hedges, which is included in interest expense on the condensed consolidated statements of income and comprehensive income, was not significant for the three and six months ended June 30, 2019 and 2018.

Additionally, the Company has total return swap contracts, with an aggregate notional amount of \$255.7 million, that effectively convert \$255.7 million of mortgage notes payable to a floating interest rate based on the Securities Industry and Financial Markets Association Municipal Swap Index ("SIFMA") plus a spread. The total return swaps provide fair market value protection on the mortgage notes payable to the counterparties during the initial period of the total return swap until the Company's option to call the mortgage notes at par can be exercised. The Company can currently call all of its total return swaps, with \$255.7 million of the outstanding debt at par. These derivatives do not qualify for hedge accounting and had a carrying and fair value of zero at both June 30, 2019 and December 31, 2018. These total return swaps are scheduled to mature between September 2021 and November 2022. The realized gains of \$2.0 million and \$2.2 million for the three months ended June 30, 2019 and 2018, respectively, and \$4.0 million and \$4.5 million for the six months ended June 30, 2019 and 2018, respectively, were reported in the condensed consolidated statements of income and comprehensive income as total return swap income.

(11) Lease Agreements - Company as Lessor

As of June 30, 2019, the Company is a lessor of apartment homes at all of its consolidated operating and lease-up communities, one commercial building, and commercial portions of mixed use communities. The apartment homes are rented under short-term leases (generally, lease terms of nine to 12 months) while commercial lease terms typically range from five to 20 years. All such leases are classified as operating leases.

Although the majority of the Company's apartment home and commercial leasing income is derived from fixed lease payments, some lease agreements also allow for variable payments. The primary driver of variable leasing income comes from utility reimbursements from apartment home leases and common area maintenance reimbursements from commercial leases. A small number of commercial leases contain provisions for lease payments based on a percentage of gross retail sales over set hurdles.

At the end of the term of apartment home leases, unless the lessee decides to renew the lease with the Company at the market rate or gives notice not to renew, the lease will be automatically renewed on a month-to-month term. Apartment home leases include an option to terminate the lease, however the lessee must pay the Company for expected or actual downtime to find a new tenant to lease the space. Most commercial leases include options to renew, with the renewal periods extending the term of the lease for no greater than the same period of time as the original lease term. The initial option to renew for commercial leases will typically be based on a fixed price while any subsequent renewal options will generally be based on the current market rate at the time of the renewal. Certain commercial leases contain lease termination options that would require the lessee to pay termination fees based on the expected amount of time it would take the Company to re-lease the space.

The Company's apartment home and commercial lease agreements do not contain residual value guarantees. As the Company is the lessor of real estate assets which tend to either hold their value or appreciate, residual value risk is not deemed to be substantial. Furthermore, the Company carries comprehensive liability, fire, extended coverage, and rental loss insurance for each of its communities as well as limited insurance coverage for certain types of extraordinary losses, such as, for example, losses from terrorism or earthquakes.

A maturity analysis of undiscounted future minimum non-cancelable base rent to be received under the above operating leases as of June 30, 2019 is summarized as follows (\$ in thousands):

	Future Minimum Rent
Remaining in 2019	\$ 511,596
2020	232,775
2021	14,872
2022	13,650
2023	12,614
Thereafter	34,218
	<u>\$ 819,725</u>

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
ESSEX PORTFOLIO, L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2019 and 2018
(Unaudited)

As of December 31, 2018, in accordance with previously applicable lease accounting guidance, Accounting Standards Codification ("ASC"), 840, "Leases", the future minimum non-cancelable base rent to be received under one commercial building and commercial portions of mixed use communities, for which the Company was the lessor, was as follows (\$ in thousands):

	Future Minimum Rent
2019	\$ 16,386
2020	15,842
2021	14,412
2022	13,324
2023	12,181
Thereafter	33,034
	<u>\$ 105,179</u>

Practical Expedients

For all operating leases the Company has elected to account for lease (e.g., fixed payments including rent) and non-lease components (e.g., utility reimbursements and common-area maintenance costs) as a single combined lease component under ASC 842 as the lease components are the predominant elements of the combined components.

As part of the transition to ASC 842, the Company has elected to use the modified retrospective transition method with the new standard being applied as of the January 1, 2019 adoption date. Additionally, the Company has elected, as of the adoption date, not to reassess whether expired or existing contracts contain leases under the new definition of a lease, not to reassess the lease classification for expired or existing leases, not to reassess whether previously capitalized initial direct costs would qualify for capitalization under ASC 842, and not to reassess whether existing or expired land easements meet the definition of a lease.

(12) Lease Agreements - Company as Lessee

As of June 30, 2019, the Company is a lessee of corporate office space, ground leases and a parking lease associated with various consolidated properties, and equipment. Lease terms for the Company's office leases, in general, range between five to 10 years while ground leases and the parking lease have terms typically ranging from 20 to 85 years. The corporate office leases occasionally contain renewal options of approximately five years while certain ground leases contain renewal options that can extend the lease term from approximately 10 to 39 years.

A majority of the Company's ground leases and the parking lease are subject to changes in the Consumer Price Index ("CPI"). Furthermore, certain of the Company's ground leases include rental payments based on a percentage of gross or net income. While lease liabilities are not remeasured as a result of changes in the CPI or percentage of gross or net income, such changes are treated as variable lease payments and recognized in the period in which the obligation for those payments was incurred.

The Company's lease agreements do not contain any residual value guarantees or restrictive covenants.

Operating lease right-of-use assets and operating lease liabilities are recognized based on the present value of lease payments over the lease term at commencement date. Because most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments.

As of June 30, 2019 and December 31, 2018, the Company had no material finance leases.

	Future Minimum Rent
2019	\$ 6,811
2020	6,855
2021	6,877
2022	6,888
2023	6,860
Thereafter	153,258
	\$ 187,549

Practical Expedients

Leases with an initial term of 12 months or less are not recorded on the balance sheet. The Company recognizes the lease expense for such leases on a straight-line basis over the lease term.

The Company has elected to account for lease (e.g., fixed payments including rent) and non-lease components (e.g., common-area maintenance costs) as a single combined lease component under ASC 842 as the lease components are the predominant elements of the combined components.

As part of the transition to ASC 842, the Company elected to use the modified retrospective transition method with the new standard being applied as of the January 1, 2019 adoption date. Additionally, the Company has elected, as of the adoption date, not to reassess whether expired or existing contracts contain leases under the new definition of a lease, not to reassess the lease classification for expired or existing leases, not to reassess whether previously capitalized initial direct costs would qualify for capitalization under ASC 842, and not to reassess whether existing or expired land easements meet the definition of a lease.

(13) Commitments and Contingencies

The Company is subject to various lawsuits in the normal course of its business operations. Such lawsuits have not had a material adverse effect on the Company's financial condition, results of operations or cash flows. While no assurances can be given, the Company does not believe there is any pending or threatened litigation against the Company that, individually or in the aggregate, would reasonably be expected to have a material adverse effect on the Company.

The Company is subject to various federal, state, and local environmental laws. Compliance by the Company with existing laws has not had a material adverse effect on the Company. However, the Company cannot predict the impact of new or changed laws or regulations on its current portfolio or on other assets that the Company may acquire in the future. To the extent that an environmental matter arises or is identified in the future that has other than a remote risk of having a material impact on the condensed consolidated financial statements, the Company will disclose the estimated range of possible outcomes associated with it, and, if an outcome is probable, accrue an appropriate liability for that matter. The Company will consider whether any such matter results in an impairment of value on the affected property and, if so, impairment will be recognized.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the Company's Condensed Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein and with the Company's 2018 annual report on Form 10-K for the year ended December 31, 2018. Capitalized terms not defined in this section have the meaning ascribed to them elsewhere in this Quarterly Report on Form 10-Q. The Company makes statements in this section that are forward-looking statements within the meaning of the federal securities laws. For a complete discussion of forward-looking statements, see the section in this Form 10-Q entitled "Forward-Looking Statements."

Essex is a self-administered and self-managed REIT that acquires, develops, redevelops, and manages apartment communities in selected residential areas located on the West Coast of the United States. Essex owns all of its interests in its real estate investments, directly or indirectly through the Operating Partnership. Essex is the sole general partner of the Operating Partnership and, as of June 30, 2019, had an approximately 96.6% general partnership interest in the Operating Partnership.

The Company's investment strategy has two components: constant monitoring of existing markets, and evaluation of new markets to identify areas with the characteristics that underlie rental growth. The Company's strong financial condition supports its investment strategy by enhancing its ability to quickly shift acquisition, development, redevelopment, and disposition activities to markets that will optimize the performance of the portfolio.

As of June 30, 2019, the Company owned or had ownership interests in 246 operating apartment communities, comprising 59,962 apartment homes, excluding the Company's ownership interest in preferred equity co-investments, loan investments, one operating commercial building, and six active developments. The Company's apartment communities are located in the following major regions:

Southern California (Los Angeles, Orange, San Diego, and Ventura counties)

Northern California (the San Francisco Bay Area)

Seattle Metro (Seattle metropolitan area)

As of June 30, 2019, the Company's development pipeline was comprised of four consolidated projects under development, two unconsolidated joint venture projects under development, and various consolidated predevelopment projects aggregating 1,853 apartment homes, with total incurred costs of \$1.0 billion, and estimated remaining project costs of \$0.2 billion, \$0.2 billion of which represents the Company's estimated remaining costs, for total estimated project costs of \$1.2 billion.

The Company's consolidated apartment communities are as follows:

	As of June 30, 2019		As of June 30, 2018	
	Apartment Homes	%	Apartment Homes	%
Southern California	22,674	46%	22,964	47%
Northern California	16,749	34%	15,970	32%
Seattle Metro	10,238	20%	10,238	21%
Total	49,661	100%	49,172	100%

Co-investments, including Wesco I, Wesco III, Wesco IV, Wesco V, CPPIB, BEXAEW, BEX II, and BEX III communities, developments under construction, and preferred equity interest co-investment communities are not included in the table presented above for both periods.

Comparison of the Three Months Ended June 30, 2019 to the Three Months Ended June 30, 2018

The Company's average financial occupancy for the Company's stabilized apartment communities or "Same-Property" (stabilized properties consolidated by the Company for the quarters ended June 30, 2019 and 2018) was 96.6% and 96.7% for the three months ended June 30, 2019 and 2018, respectively. Financial occupancy is defined as the percentage resulting from dividing actual rental income by total potential rental income. Actual rental income represents contractual rental income pursuant to leases without considering delinquency and concessions. Total potential rental income represents the value of all apartment homes, with occupied apartment homes valued at contractual rental rates pursuant to leases and vacant apartment homes valued at estimated market rents. The Company believes that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant apartment home at its estimated market rate.

Market rates are determined using the recently signed effective rates on new leases at the property and are used as the starting point in the determination of the market rates of vacant apartment homes. The Company may increase or decrease these rates based on a variety of factors, including overall supply and demand for housing, concentration of new apartment deliveries within the same submarket which can cause periodic disruption due to greater rental concessions to increase leasing velocity, and rental affordability. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates, and the Company's calculation of financial occupancy may not be comparable to financial occupancy disclosed by other REITs.

The Company does not take into account delinquency and concessions to calculate actual rent for occupied apartment homes and market rents for vacant apartment homes. The calculation of financial occupancy compares contractual rates for occupied apartment homes to estimated market rents for unoccupied apartment homes, and thus the calculation compares the gross value of all apartment homes excluding delinquency and concessions. For apartment communities that are development properties in lease-up without stabilized occupancy figures, the Company believes the physical occupancy rate is the appropriate performance metric. While an apartment community is in the lease-up phase, the Company's primary motivation is to stabilize the property which may entail the use of rent concessions and other incentives, and thus financial occupancy, which is based on contractual income, is not considered the best metric to quantify occupancy.

The regional breakdown of the Company's Same-Property portfolio for financial occupancy for the three months ended June 30, 2019 and 2018 is as follows:

	Three Months Ended June 30,	
	2019	2018
Southern California	96.7%	96.8%
Northern California	96.6%	96.7%
Seattle Metro	96.4%	96.3%

The following table provides a breakdown of revenues amounts, including revenues attributable to the Same-Properties:

Property Revenues (\$ in thousands)	Number of Apartment Homes	Three Months Ended June 30,		Dollar Change	Percentage Change
		2019	2018		
Same-Property Revenues:					
Southern California	21,979	\$ 147,158	\$ 142,617	\$ 4,541	3.2%
Northern California	15,685	132,043	127,189	4,854	3.8%
Seattle Metro	10,238	60,841	58,796	2,045	3.5%
Total Same-Property Revenues	47,902	340,042	328,602	11,440	3.5%
Non-Same Property Revenues		19,333	17,924	1,409	7.9%
Total Property Revenues		\$ 359,375	\$ 346,526	\$ 12,849	3.7%

Same-Property Revenues increased by \$11.4 million or 3.5% to \$340.0 million in the second quarter of 2019 from \$328.6 million in the second quarter of 2018. The increase was primarily attributable to an increase of 3.5% in average rental rates from \$2,231 per apartment home in the second quarter of 2018 to \$2,309 per apartment home in the second quarter of 2019.

Non-Same Property Revenues increased by \$1.4 million or 7.9% to \$19.3 million in the second quarter of 2019 from \$17.9 million in the second quarter of 2018. The increase was primarily due to revenues generated from Marquis, which was consolidated in December 2018, Station Park Green - Phase I, a development community that began producing rental income during the first quarter of 2018, and One South Market, which was consolidated in March 2019, partially offset by the sales of Domain in the second quarter of 2018 and of 8th & Hope in the fourth quarter of 2018.

Management and other fees from affiliates remained relatively flat at \$2.3 million in the second quarter of 2019 compared to the second quarter of 2018.

Property operating expenses, excluding real estate taxes increased \$1.1 million or 1.9% to \$59.2 million for the second quarter of 2019 compared to \$58.1 million for the second quarter of 2018 primarily due to an increase of \$1.2 million in maintenance and repairs expenses. Same-Property operating expenses, excluding real estate taxes, increased by \$1.8 million or 3.2% to

\$57.3 million in the second quarter of 2019 compared to \$55.5 million in the second quarter of 2018, primarily due to an increase of \$1.2 million in maintenance and repairs expenses.

Real estate taxes increased \$0.3 million or 0.8% to \$36.3 million for the second quarter of 2019 compared to \$36.0 million for the second quarter of 2018, primarily due to increases in property valuations in Southern and Northern California, offset by favorable tax assessments in the Seattle Metro region. Same-Property real estate taxes remained relatively flat at \$34.8 million in the second quarter of 2019 compared to \$34.9 million in the second quarter of 2018, primarily due to increases in property valuations in Southern and Northern California, offset by favorable tax assessments in the Seattle Metro region.

Corporate-level property management expenses increased \$0.4 million or 5.1% to \$8.2 million in the second quarter of 2019 compared to \$7.8 million in the second quarter of 2018, primarily due to an increase in corporate-level property management and staffing costs supporting the communities.

Depreciation and amortization expense increased by \$0.2 million or 0.2% to \$119.5 million for the second quarter of 2019 compared to \$119.3 million for the second quarter of 2018, primarily due to the completion of the Station Park Green - Phase I development during the first and second quarters of 2018, consolidation of Marquis in the fourth quarter of 2018, and consolidation of One South Market in the first quarter of 2019. The increase was partially offset by the sale of 8th & Hope in the fourth quarter of 2018.

Interest expense decreased by \$2.2 million or 3.9% to \$54.1 million for the second quarter of 2019 compared to \$56.3 million for the second quarter of 2018, primarily due to debt that was paid off or matured, as well as regular principal amortization during and after the second quarter of 2018, which resulted in a decrease in interest expense of \$5.7 million for the second quarter of 2019. Additionally, there was a \$2.2 million increase in capitalized interest in the second quarter of 2019, due to an increase in development costs as compared to the same period in 2018. These decreases to interest expense were partially offset by an increase in average outstanding debt primarily as a result of the issuance of \$500.0 million senior unsecured notes due March 1, 2029 in February and March 2019, which resulted in an increase of \$5.7 million interest expense for the second quarter of 2019.

Total return swap income of \$2.0 million in the second quarter of 2019 consists of monthly settlements related to the Company's total return swap contracts that were entered into during 2015 in connection with issuing fixed rate tax-exempt mortgage notes. The decrease of \$0.2 million or 9.1% from \$2.2 million for the second quarter of 2018 was due to less favorable interest rates.

Interest and other income increased by \$1.4 million or 20.3% to \$8.3 million for the second quarter of 2019 compared to \$6.9 million for the second quarter of 2018, primarily due to an increase of \$1.4 million in marketable securities and other income.

Equity income from co-investments increased \$2.0 million or 13.3% to \$17.0 million for the second quarter of 2019 compared to \$15.0 million for the second quarter of 2018, primarily due to an increase of \$1.3 million in income from preferred equity investments.

Comparison of the Six Months Ended June 30, 2019 to the Six Months Ended June 30, 2018

Our average financial occupancy for the Company's stabilized apartment communities or "Same-Property" (stabilized properties consolidated by the Company for the six months ended June 30, 2019 and 2018) was 96.8% and 96.9% for the six months ended June 30, 2019 and 2018, respectively.

The regional breakdown of the Company's Same-Property portfolio for financial occupancy for the six months ended June 30, 2019 and 2018 is as follows:

	Six Months Ended June 30,	
	2019	2018
Southern California	96.7%	96.9%
Northern California	96.8%	97.1%
Seattle Metro	96.7%	96.6%

The following table provides a breakdown of revenue amounts, including revenues attributable to the Same-Properties:

Property Revenues (\$ in thousands)	Number of Apartment Homes	Six Months Ended June 30,		Dollar Change	Percentage Change
		2019	2018		
Same-Property Revenues:					
Southern California	21,979	\$ 293,380	\$ 284,534	\$ 8,846	3.1%
Northern California	15,685	262,933	253,826	9,107	3.6%
Seattle Metro	10,238	121,081	117,509	3,572	3.0%
Total Same-Property Revenues	47,902	677,394	655,869	21,525	3.3%
Non-Same Property Revenues		35,869	35,604	265	0.7%
Total Property Revenues		\$ 713,263	\$ 691,473	\$ 21,790	3.2%

Same-Property Revenues increased by \$21.5 million or 3.3% to \$677.4 million in the six months ended June 30, 2019 from \$655.9 million in the six months ended June 30, 2018. The increase was primarily attributable to an increase of 3.4% in average rental rates from \$2,219 per apartment home in the six months ended June 30, 2018 to \$2,295 per apartment home in the six months ended June 30, 2019.

Non-Same Property Revenues increased by \$0.3 million or 0.7% to \$35.9 million in the six months ended June 30, 2019 from \$35.6 million in the six months ended June 30, 2018. The increase was primarily due to revenues generated from Marquis, which was consolidated in December 2018, Station Park Green - Phase I, a development community that began producing rental income during the first quarter of 2018, and One South Market, which was consolidated in March 2019, partially offset by the sales of Domain in the second quarter of 2018 and of 8th & Hope in the fourth quarter of 2018.

Management and other fees from affiliates remained relatively flat at \$4.6 million for the six months ended June 30, 2019 and 2018.

Property operating expenses, excluding real estate taxes increased \$2.7 million or 2.3% to \$118.1 million for the six months ended June 30, 2019 compared to \$115.4 million for the six months ended June 30, 2018 primarily due to an increase of \$1.4 million in maintenance and repairs as well as an increase of \$1.3 million in utilities expenses. Same-Property operating expenses, excluding real estate taxes, increased by \$3.3 million or 3.0% to \$114.5 million for the six months ended June 30, 2019 compared to \$111.2 million for the six months ended June 30, 2018, primarily due to a \$1.4 million increase in maintenance and repairs expense and an increase of \$1.2 million in utilities expenses.

Real estate taxes increased \$2.0 million or 2.7% to \$75.7 million for the six months ended June 30, 2019 compared to \$73.7 million for the six months ended June 30, 2018 primarily due to increases in property valuations in Southern and Northern California, offset by favorable tax assessments in the Seattle Metro region. Same-Property real estate taxes increased by \$1.9 million or 2.7% to \$72.1 million for the six months ended June 30, 2019 compared to \$70.2 million for the six months ended June 30, 2018 primarily due to increases in property valuations in Southern and Northern California, offset by favorable tax assessments in the Seattle Metro region.

Corporate-level property management expenses increased \$0.8 million or 5.1% to \$16.4 million for the six months ended June 30, 2019 compared to \$15.6 million for the six months ended June 30, 2018 primarily due to an increase in corporate-level property management and staffing costs supporting the communities.

Depreciation and amortization expense increased by \$1.6 million or 0.7% to \$240.0 million for the six months ended June 30, 2019 compared to \$238.4 million for the six months ended June 30, 2018, primarily due to the completion of the Station Park Green - Phase I development during the first and second quarters of 2018, consolidation of Marquis in the fourth quarter of 2018, and consolidation of One South Market in the first quarter of 2019. The increase was partially offset by the sales of Domain in the second quarter of 2018 and of 8th & Hope in the fourth quarter of 2018.

Interest expense decreased \$3.3 million or 3.0% to \$107.8 million for the six months ended June 30, 2019 compared to \$111.1 million for the six months ended June 30, 2018, primarily due to various debt that was paid off or matured and regular principal amortization during and after the six months ended June 30, 2018, which resulted in a decrease in interest expense of \$10.3 million for the six months ended June 30, 2019. Additionally, there was a \$3.9 million increase in capitalized interest in the six months ended June 30, 2019, which was due to an increase in development costs as compared to the same period in 2018.

These decreases to interest expense were partially offset by an increase in average outstanding debt primarily as a result of the issuance of \$300.0 million senior unsecured notes due March 15, 2048 in March 2018 and \$500.0 million senior unsecured notes due March 1, 2029 in February and March 2019, which resulted in an increase of \$10.9 million interest expense for the six months ended June 30, 2019 as compared to the six months ended June 30, 2018.

Total return swap income of \$4.0 million for the six months ended June 30, 2019 consists of monthly settlements related to the Company's total return swap contracts that were entered into during 2015 in connection with issuing fixed rate tax-exempt mortgage notes. The decrease of \$0.5 million or 11.1% from \$4.5 million for the six months ended June 30, 2018 was due to less favorable interest rates.

Interest and other income increased by \$7.8 million or 60.9% to \$20.6 million for the six months ended June 30, 2019 compared to \$12.8 million for the six months ended June 30, 2018, primarily due to an increase of \$5.2 million in unrealized gains and losses on marketable securities recognized through income and an increase in marketable securities and other income of \$2.8 million.

Equity income from co-investments decreased \$14.6 million or 30.5% to \$33.2 million for the six months ended June 30, 2019 compared to \$47.8 million for the six months ended June 30, 2018, primarily due to a decrease in promote income. In the first quarter of 2019, the Company recognized \$0.8 million of promote income from the acquisition of One South Market compared to \$20.5 million recognized in first quarter of 2018 from the BEXAEW joint venture, resulting in a decrease of \$19.7 million in promote income. The decrease was partially offset by an increase of \$3.4 million in income from preferred equity investments.

Gain on remeasurement of co-investment of \$31.5 million for the six months ended June 30, 2019 resulted from the purchase of the Company's joint venture partner's 45.0% membership interest in the One South Market co-investment in March 2019.

Liquidity and Capital Resources

As of June 30, 2019, the Company had \$38.2 million of unrestricted cash and cash equivalents and \$215.4 million in marketable securities, of which \$77.3 million were equity securities or available for sale debt securities. The Company believes that cash flows generated by its operations, existing cash and cash equivalents, marketable securities balances, availability under existing lines of credit, access to capital markets and the ability to generate cash from the disposition of real estate are sufficient to meet all of its reasonably anticipated cash needs during the next twelve months. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect the Company's plans for acquisitions, dispositions, development and redevelopment activities.

As of June 30, 2019, Fitch Ratings, Moody's Investor Service, and Standard and Poor's credit agencies rate the Company and the Operating Partnership, BBB+/Positive, Baa1/Stable, and BBB+/Stable, respectively.

As of June 30, 2019, the Company had two unsecured lines of credit aggregating \$1.24 billion. As of June 30, 2019, there was \$117.0 million outstanding on the Company's \$1.2 billion unsecured line of credit. The underlying interest rate is based on a tiered rate structure tied to the Company's credit ratings and was LIBOR plus 0.825% as of June 30, 2019. This facility is scheduled to mature in December 2022, with one 18-month extension, exercisable at the Company's option. As of June 30, 2019, there was no amount outstanding on the Company's \$35.0 million working capital unsecured line of credit. The underlying interest rate on the \$35.0 million line is based on a tiered rate structure tied to the Company's credit ratings and was LIBOR plus 0.825% as of June 30, 2019. This facility is scheduled to mature in February 2021.

In February 2019, the Operating Partnership issued \$350.0 million of senior unsecured notes due on March 1, 2029, with a coupon rate of 4.000% (the "2029 Notes"), which are payable on March 1 and September 1 of each year, beginning on September 1, 2019. The 2029 Notes were offered to investors at a price of 99.188% of the principal amount thereof. The 2029 Notes are general unsecured senior obligations of the Operating Partnership, rank equally in right of payment with all other senior unsecured indebtedness of the Operating Partnership and are unconditionally guaranteed by the Company. In March 2019, the Operating Partnership issued an additional \$150.0 million of the 2029 Notes at a price of 100.717% of the principal amount thereof. These additional notes have substantially identical terms as the 2029 Notes issued in February 2019. The Company used the net proceeds of these offerings to repay indebtedness under its unsecured lines of credit and for other general corporate and working capital purposes.

In January 2019, the Company repaid \$290.0 million in secured mortgage notes payable with a coupon rate of 5.57% and a stated maturity date of May 2019.

In September 2018, the Company entered into a new equity distribution agreement pursuant to which the Company may offer and sell shares of its common stock having an aggregate gross sales price of up to \$900.0 million (the "2018 ATM Program"). In connection with the 2018 ATM Program, the Company may also enter into related forward sale agreements whereby, at the Company's discretion, it may sell shares of its common stock under the 2018 ATM Program under forward sales agreements. The use of a forward sales agreement would allow the Company to lock in a share price on the sale of shares of its common stock at the time the agreement is executed, but defer receiving the proceeds from the sale of shares until a later date. During the six months ended June 30, 2019, the Company did not sell any shares of its common stock through the 2018 ATM Program. As of June 30, 2019, there are no outstanding forward purchase agreements, and \$900.0 million of shares remains available to be sold under this program.

In December 2015, the Company's board of directors authorized a stock repurchase plan to allow the Company to acquire shares in an aggregate of up to \$250.0 million. In February 2019, the board of directors approved the replenishment of the stock repurchase plan such that, as of such date, the Company had \$250.0 million of purchase authority remaining under the stock repurchase plan. During the six months ended June 30, 2019, the Company repurchased and retired 234,061 shares of its common stock totaling \$57.0 million, including commissions, at an average price of \$243.48 per share. As of June 30, 2019, the Company had \$250.0 million of purchase authority remaining under the stock repurchase plan.

Essex pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in investment grade securities held available for sale or is used by the Company to reduce balances outstanding under its line of credit.

Development and Predevelopment Pipeline

The Company defines development projects as new communities that are being constructed, or are newly constructed and are in a phase of lease-up and have not yet reached stabilized operations. As of June 30, 2019, the Company's development pipeline was comprised of four consolidated projects under development, two unconsolidated joint venture projects under development and various consolidated predevelopment projects, aggregating 1,853 apartment homes, with total incurred costs of \$1.0 billion, and estimated remaining project costs of approximately \$0.2 billion, \$0.2 billion of which represents the Company's estimated remaining costs, for total estimated project costs of \$1.2 billion.

The Company expects to fund the development and predevelopment pipeline by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, construction loans, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of assets, if any.

Redevelopment Pipeline

The Company defines redevelopment communities as existing properties owned or recently acquired, which have been targeted for additional investment by the Company with the expectation of increased financial returns through property improvement. During redevelopment, apartment homes may not be available for rent and, as a result, may have less than stabilized operations. As of June 30, 2019, the Company had ownership interests in five major redevelopment communities aggregating 1,727 apartment homes with estimated redevelopment costs of \$140.1 million, of which approximately \$22.8 million remains to be expended. The Company has the ability to cease funding of the redevelopment pipeline as needed.

Derivative Activity

The Company uses interest rate swaps, interest rate caps, and total return swap contracts to manage certain interest rate risks. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps and total return swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

Alternative Capital Sources

The Company utilizes co-investments as an alternative source of capital for acquisitions of both operating and development communities. As of June 30, 2019, the Company had an interest in 806 apartment homes in communities actively under

development with joint ventures for total estimated costs of \$0.6 billion. Total estimated remaining costs total approximately \$0.1 billion, of which the Company estimates that its remaining investment in these development joint ventures will be approximately \$0.1 billion. In addition, the Company had an interest in 10,301 apartment homes of operating communities with joint ventures for a total book value of \$0.8 billion as of June 30, 2019.

Off-Balance Sheet Arrangements

The Company has various unconsolidated interests in certain joint ventures. The Company does not believe that these unconsolidated investments have a materially different impact on its liquidity, cash flows, capital resources, credit or market risk than its consolidated operations. See Note 4, Co-investments, in the Notes to Condensed Consolidated Financial Statements for carrying values and combined summarized financial information of these unconsolidated investments.

Critical Accounting Policies and Estimates

The preparation of condensed consolidated financial statements, in accordance with U.S. GAAP, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The Company defines critical accounting policies as those accounting policies that require the Company's management to exercise their most difficult, subjective and complex judgments. The Company's critical accounting policies and estimates relate principally to the following key areas: (i) accounting for the acquisition of investments in real estate; and (ii) assessing and measuring the impairment of the Company's real estate properties and investments in and advances to joint ventures and affiliates. The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from those estimates made by management.

The Company's critical accounting policies and estimates have not changed materially from the information reported in Note 2, Summary of Critical and Significant Accounting Policies, in the Company's annual report on Form 10-K for the year ended December 31, 2018.

Forward-Looking Statements

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this quarterly report on Form 10-Q which are not historical facts may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Exchange Act, including statements regarding the Company's expectations, estimates, assumptions, hopes, intentions, beliefs and strategies regarding the future. Words such as "expects," "assumes," "anticipates," "may," "will," "intends," "plans," "projects," "believes," "seeks," "future," "estimates," and variations of such words and similar expressions are intended to identify such forward-looking statements. Such forward-looking statements include, among other things, statements regarding the Company's intent, beliefs or expectations with respect to the timing of completion of current development and redevelopment projects and the stabilization of such projects, the timing of lease-up and occupancy of its apartment communities, the anticipated operating performance of its apartment communities, the total projected costs of development and redevelopment projects, co-investment activities, qualification as a REIT under the Internal Revenue Code of 1986, as amended, the real estate markets in the geographies in which the Company's properties are located and in the United States in general, the adequacy of future cash flows to meet anticipated cash needs, its financing activities and the use of proceeds from such activities, the availability of debt and equity financing, general economic conditions including the potential impacts from economic conditions, trends affecting the Company's financial condition or results of operations, changes to U.S. tax laws and regulations in general or specifically related to REITs or real estate, changes to laws and regulations in jurisdictions in which communities the Company owns are located, and other information that is not historical information.

While the Company's management believes the assumptions underlying its forward-looking statements are reasonable, such forward-looking statements involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control, which could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The Company cannot assure the future results or outcome of the matters described in these statements; rather, these statements merely reflect the Company's current expectations of the approximate outcomes of the matters discussed. Factors that might cause the Company's actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, but are not limited to, the following: the Company may fail to achieve its business objectives; the actual completion of development and redevelopment projects may be subject to delays; the stabilization dates of such projects may be delayed; the Company may abandon or defer development or redevelopment projects for a number of reasons, including changes in local market conditions which make development less desirable, increases in costs of

development, increases in the cost of capital or lack of capital availability, resulting in losses; the total projected costs of current development and redevelopment projects may exceed expectations; such development and redevelopment projects may not be completed; development and redevelopment projects and acquisitions may fail to meet expectations; estimates of future income from an acquired property may prove to be inaccurate; occupancy rates and rental demand may be adversely affected by competition and local economic and market conditions; there may be increased interest rates and operating costs; the Company may be unsuccessful in the management of its relationships with its co-investment partners; future cash flows may be inadequate to meet operating requirements and/or may be insufficient to provide for dividend payments in accordance with REIT requirements; there may be a downturn in general economic conditions, the real estate industry, and the markets in which the Company's communities are located; changes in laws or regulations; the terms of any refinancing may not be as favorable as the terms of existing indebtedness; unexpected difficulties in leasing of development projects; volatility in financial and securities markets; the Company's failure to successfully operate acquired properties; unforeseen consequences from cyber-intrusion; the Company's inability to maintain our investment grade credit rating with the rating agencies; government approvals, actions and initiatives, including the need for compliance with environmental requirements; and those further risks, special considerations, and other factors referred to in this quarterly report on Form 10-Q, in the Company's annual report on Form 10-K for the year ended December 31, 2018, and in the Company's other filings with the Securities and Exchange Commission (the "SEC"). All forward-looking statements are made as of the date hereof, the Company assumes no obligation to update or supplement this information for any reason, and therefore, they may not represent the Company's estimates and assumptions after the date of this report.

Funds from Operations Attributable to Common Stockholders and Unitholders

Funds from Operations Attributable to Common Stockholders and Unitholders ("FFO") is a financial measure that is commonly used in the REIT industry. The Company presents FFO and FFO excluding non-core items (referred to as "Core FFO") as supplemental operating performance measures. FFO and Core FFO are not used by the Company as, nor should they be considered to be, alternatives to net income computed under U.S. GAAP as an indicator of the Company's operating performance or as alternatives to cash from operating activities computed under U.S. GAAP as an indicator of the Company's ability to fund its cash needs.

FFO and Core FFO are not meant to represent a comprehensive system of financial reporting and do not present, nor do they intend to present, a complete picture of the Company's financial condition and operating performance. The Company believes that net income computed under U.S. GAAP is the primary measure of performance and that FFO and Core FFO are only meaningful when they are used in conjunction with net income.

The Company considers FFO and Core FFO to be useful financial performance measurements of an equity REIT because, together with net income and cash flows, FFO and Core FFO provide investors with additional bases to evaluate operating performance and ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures and to pay dividends. By excluding gains or losses related to sales of depreciated operating properties and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help investors compare the operating performance of a real estate company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business operations, Core FFO allows investors to compare the core operating performance of the Company to its performance in prior reporting periods and to the operating performance of other real estate companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results. The Company believes that its consolidated financial statements, prepared in accordance with U.S. GAAP, provide the most meaningful picture of its financial condition and its operating performance.

In calculating FFO, the Company follows the definition for this measure published by the National Association of Real Estate Investment Trusts ("NAREIT"), which is the leading REIT industry association. The Company believes that, under the NAREIT FFO definition, the two most significant adjustments made to net income are (i) the exclusion of historical cost depreciation and (ii) the exclusion of gains and losses from the sale of previously depreciated properties. The Company agrees that these two NAREIT adjustments are useful to investors for the following reasons:

- (a) historical cost accounting for real estate assets in accordance with U.S. GAAP assumes, through depreciation charges, that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on Funds from Operations "since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves." Consequently, NAREIT's definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by U.S. GAAP do not reflect the underlying economic realities.

- (b) REITs were created as a legal form of organization in order to encourage public ownership of real estate as an asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT's definition of FFO, of gains and losses from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT's activity and assists in comparing those operating results between periods.

Management believes that it has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs' calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosure of FFO may not be comparable to the Company's calculation.

The following table is a reconciliation of net income available to common stockholders to FFO and Core FFO for the six months ended June 30, 2019 and 2018 (in thousands, except share and per share amounts):

Essex Property Trust, Inc.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Net income available to common stockholders	\$ 92,275	\$ 100,440	\$ 211,133	\$ 191,358
Adjustments:				
Depreciation and amortization	119,465	119,330	240,033	238,435
Gains not included in FFO attributable to common stockholders and unitholders	(870)	(22,244)	(32,405)	(22,244)
Depreciation and amortization from unconsolidated co-investments	14,631	15,720	29,821	31,579
Noncontrolling interest related to Operating Partnership units	3,228	3,460	7,399	6,592
Depreciation attributable to third party ownership and other	(236)	(233)	(466)	(465)
Funds from operations attributable to common stockholders and unitholders	\$ 228,493	\$ 216,473	\$ 455,515	\$ 445,255
Funds from operations attributable to common stockholders and unitholders per share - diluted	\$ 3.36	\$ 3.17	\$ 6.69	\$ 6.52
Non-core items:				
Expensed acquisition and investment related costs	24	68	56	125
(Gain) loss on sale of marketable securities	(556)	131	(498)	(549)
Unrealized losses (gains) on marketable securities	56	(122)	(4,454)	754
Unrealized gain on unconsolidated co-investments	—	—	(314)	—
Interest rate hedge ineffectiveness ⁽¹⁾	—	40	181	96
Gain on early retirement of debt from unconsolidated co-investments	(332)	—	(1,668)	—
Co-investment promote income	—	—	(809)	(20,541)
Income from early redemption of preferred equity investments	(732)	(1,578)	(832)	(1,602)
General and administrative and other, net	—	—	—	2,433
Insurance reimbursements and legal settlements, net	(38)	(450)	(248)	(450)
Core Funds from Operations attributable to common stockholders and unitholders	\$ 226,915	\$ 214,562	\$ 446,929	\$ 425,521
Core Funds from Operations attributable to common stockholders and unitholders per share-diluted	\$ 3.33	\$ 3.14	\$ 6.57	\$ 6.23
Weighted average number shares outstanding, diluted ⁽²⁾	68,079,855	68,331,709	68,063,937	68,324,230

(1) Interest rate swaps generally are adjusted to fair value through other comprehensive income (loss). However, because certain of the Company's interest rate swaps do not have a 0% LIBOR floor, while related hedged debt in these cases is subject to a 0% LIBOR floor, the portion of the change in fair value of these interest rate swaps attributable to this mismatch, if any, is recorded as a non-cash interest rate hedge ineffectiveness through interest expense. On January 1, 2019, the Company adopted

ASU No. 2017-12 "Derivatives and Hedging - Targeted Improvements to Accounting for Hedging Activities," which resulted in a cumulative effect adjustment of approximately \$181,000 from interest expense to accumulated other comprehensive income.

(2) Assumes conversion of all outstanding operating partnership interests in the Operating Partnership into shares of the Company's common stock and excludes all DownREIT limited partnership units for which the Operating Partnership has the ability and intention to redeem the units for cash and does not consider them to be common stock equivalents.

Net Operating Income

Net operating income ("NOI") and Same-Property NOI are considered by management to be an important supplemental performance measure to earnings from operations included in the Company's condensed consolidated statements of income and comprehensive income. The presentation of Same-Property NOI assists with the presentation of the Company's operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual communities or groups of communities. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines Same-Property NOI as Same-Property revenues less Same-Property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to NOI and Same-Property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Earnings from operations	\$ 124,560	\$ 138,516	\$ 240,255	\$ 249,063
Adjustments:				
Corporate-level property management expenses	8,212	7,782	16,365	15,552
Depreciation and amortization	119,465	119,330	240,033	238,435
Management and other fees from affiliates	(2,260)	(2,197)	(4,595)	(4,505)
General and administrative	13,927	11,125	27,386	25,938
Expensed acquisition and investment related costs	24	68	56	125
Gain on sale of real estate and land	—	(22,244)	—	(22,244)
NOI	263,928	252,380	519,500	502,364
Less: Non-Same Property NOI	(15,959)	(14,224)	(28,697)	(27,886)
Same-Property NOI	\$ 247,969	\$ 238,156	\$ 490,803	\$ 474,478

Item 3: Quantitative and Qualitative Disclosures About Market Risks

Interest Rate Hedging Activities

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company uses interest rate swaps as part of its cash flow hedging strategy. As of June 30, 2019, the Company has entered into five interest rate swap contracts to mitigate the risk of changes in the interest-related cash outflows on \$175.0 million of the Company's unsecured term debt. As of June 30, 2019, the Company also had \$269.3 million of secured variable rate indebtedness, of which \$9.9 million is subject to interest rate cap protection. All of the Company's interest rate swaps are designated as cash flow hedges as of June 30, 2019. The following table summarizes the notional amount, carrying value, and estimated fair value of the Company's cash flow hedge derivative instruments used to hedge interest rates as of June 30, 2019. The notional amount represents the aggregate amount of a particular security that is currently hedged at one time, but does not represent exposure to credit, interest rates, or market risks. The table also includes a sensitivity analysis to demonstrate the impact on the Company's derivative instruments from an increase or decrease in 10-year Treasury bill interest rates by 50 basis points, as of June 30, 2019.

(\$ in thousands)	Notional Amount	Maturity Date Range	Carrying and	Estimated Carrying Value	
			Estimated Fair Value	+50 Basis Points	-50 Basis Points
Cash flow hedges:					
Interest rate swaps	\$ 175,000	2022	\$ 1,338	\$ 3,503	\$ (863)
Interest rate caps	9,924	2019	—	—	—
Total cash flow hedges	<u>\$ 184,924</u>	<u>2019-2022</u>	<u>\$ 1,338</u>	<u>\$ 3,503</u>	<u>\$ (863)</u>

Additionally, the Company has entered into total return swap contracts, with an aggregate notional amount of \$255.7 million that effectively convert \$255.7 million of fixed mortgage notes payable to a floating interest rate based on the SIFMA plus a spread and have a carrying value of zero at June 30, 2019. The Company is exposed to insignificant interest rate risk on these swaps as the related mortgages are callable, at par, by the Company, co-terminus with the termination of any related swap. These derivatives do not qualify for hedge accounting.

Interest Rate Sensitive Liabilities

The Company is exposed to interest rate changes primarily as a result of its lines of credit and long-term debt used to maintain liquidity and fund capital expenditures and expansion of the Company's real estate investment portfolio and operations. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, the Company borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps, and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Company does not enter into derivative or interest rate transactions for speculative purposes.

The Company's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows.

For the Years Ended	2019	2020	2021	2022	2023	Thereafter	Total	Fair value
(\$ in thousands, except for interest rates)								
Fixed rate debt	\$ 117,776	694,928	544,824	342,408	602,093	2,824,736	\$ 5,126,765	\$ 5,298,152
Average interest rate	5.1%	5.0%	4.5%	3.8%	3.7%	3.9%	4.1%	
Variable rate debt ⁽¹⁾	\$ 305	652	713	467,780	852	266,031	\$ 736,333	\$ 731,305
Average interest rate	2.7%	2.7%	2.7%	3.0%	2.7%	2.6%	2.9%	

(1) \$175.0 million is subject to interest rate swap agreements, \$9.9 million is subject to interest rate caps, and \$255.7 million is subject to total return swaps.

The table incorporates only those exposures that exist as of June 30, 2019. It does not consider those exposures or positions that could arise after that date. As a result, the Company's ultimate realized gain or loss, with respect to interest rate fluctuations and hedging strategies would depend on the exposures that arise prior to settlement.

Item 4: Controls and Procedures

Essex Property Trust, Inc.

As of June 30, 2019, Essex carried out an evaluation, under the supervision and with the participation of management, including Essex's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Essex's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based upon that evaluation, Essex's Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2019, Essex's disclosure controls and procedures were effective to ensure that the information required to be disclosed by Essex in the reports that Essex files or submits under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that

information required to be disclosed in the reports that Essex files or submits under the Exchange Act is accumulated and communicated to Essex's management, including Essex's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in Essex's internal control over financial reporting, that occurred during the quarter ended June 30, 2019, that have materially affected, or are reasonably likely to materially affect, Essex's internal control over financial reporting.

Essex Portfolio, L.P.

As of June 30, 2019, the Operating Partnership carried out an evaluation, under the supervision and with the participation of management, including Essex's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Operating Partnership's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2019, the Operating Partnership's disclosure controls and procedures were effective to ensure that the information required to be disclosed by the Operating Partnership in the reports that the Operating Partnership files or submits under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that information required to be disclosed in the reports that the Operating Partnership files or submits under the Exchange Act is accumulated and communicated to the Operating Partnership's management, including Essex's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in the Operating Partnership's internal control over financial reporting, that occurred during the quarter ended June 30, 2019, that have materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Part II -- Other Information

Item 1: Legal Proceedings

The Company is subject to various lawsuits in the normal course of its business operations. While the resolution of any such matter cannot be predicted with certainty, the Company is not currently a party to any legal proceedings nor is any legal proceeding currently threatened against the Company that the Company believes, individually or in the aggregate, would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A: Risk Factors

In addition to the other information set forth in this quarterly report on Form 10-Q, you should carefully consider the factors discussed in "Part I. Item A. Risk Factors" in the Company's annual report on Form 10-K for the year ended December 31, 2018, which could materially affect the Company's financial condition, results of operations or cash flows. There have been no material changes to the Risk Factors disclosed in Item 1A of the Company's annual report on Form 10-K for the year ended December 31, 2018, as filed with the SEC and available at www.sec.gov. The risks described in the Company's annual report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known or that the Company currently deems to be immaterial may also materially adversely affect the Company's financial condition, results of operations or cash flows.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities; Essex Portfolio, L.P.

During the three months ended June 30, 2019, the Operating Partnership issued OP Units in private placements in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act, in the amounts and for the consideration set forth below:

During the three months ended June 30, 2019, Essex issued an aggregate of 11,025 shares of its common stock upon the exercise of stock options, the vesting of restricted stock awards and the exchange of OP Units and DownREIT limited partnership units. Essex contributed the proceeds of \$2.0 million from the option exercises during the three months ended June 30, 2019 to the Operating Partnership in exchange for an aggregate of 9,435 OP Units, as required by the Operating Partnership's partnership agreement. Furthermore, for each share of common stock issued by Essex in connection with vesting

[Index](#)

of restricted stock awards and the exchange of OP Units and DownREIT limited partnership units, the Operating Partnership issued OP Units to Essex, as required by the partnership agreement. During the three months ended June 30, 2019, 1,590 OP Units were issued to Essex pursuant to this mechanism.

Stock Repurchases

In February 2019, the board of directors approved the replenishment of the Company's stock repurchase plan such that, as of such date, the Company had \$250.0 million of purchase authority remaining under the replenished plan. As a result of the replenishment, as of June 30, 2019, the Company had \$250.0 million of purchase authority remaining under the stock repurchase plan. The Company did not repurchase any of its common stock during the three months ended June 30, 2019.

Item 3: Defaults Upon Senior Securities

None.

Item 4: Mine Safety Disclosures

Not applicable.

Item 5: Other Information

None.

Section 2: EX-31.1 (EXHIBIT 31.1)

EXHIBIT 31.1

**ESSEX PROPERTY TRUST, INC.
Certification of Chief Executive Officer**

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Michael J. Schall, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Essex Property Trust, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
